

I operate a small criminal law practice in Toronto. My experience includes conducting trials throughout the Greater Toronto area. I served as the CLA Rep for Old City Hall since 2017 and now assist the team at the OCJT. In this role I have been involved in various committees including bench and bar, operations, and bail. I have also assisted with various social events since the transition. For the past year I have worked as a per-diem Crown Attorney with the North York, now Central Toronto, team.

Outside of law practice I have been involved with volunteering with high school students as part of a youth group and have been on the Board of Directors for a national charity.

I operate a small business planning CPD and social/networking programs for Canadian lawyers. We plan both local programs and events in exotic locations.

My plan for the board is to improve camaraderie amongst members as well as other system stakeholders including the Crown and judiciary and improve the experience of appearing at the OCJT.

I have a passion for the right to bail and want to be involved in improving the experience for our clients at the TRBC through working to improve efficiency and litigating where necessary.

Thank you for your consideration.
