

Brendan Neil – Halton Regional Director

In the coming term, I hope to continue the work that the CLA has done with regards to ensuring that the criminal defence bar has a voice, particularly in terms of communication and negotiations with the various stakeholders in the criminal justice system. I also hope to continue to provide a perspective from those that practice outside of Toronto and to ensure that the defence bar is aware of the benefits that our organization has for them both professionally and personally.

As we move past the shutdowns related to Covid 19 we are seeing many changes in the way things are done in our system and it is vital that the defence bar continues to be an integral part of planning and adapting as we move forward.
