

CLA Committee Report - Criminal Law and Technology Committee

Co-Chairs: Eric Neubauer and Jessyca Greenwood

During the course of the last term the Technology Committee worked to develop resources for CLA members to assist with integrating technology into defence practice.

The Committee advocated for positive changes and brought forward issues to the executive to be raised at modernization meetings and in other forums. We also liaised with Counsel for the OCJ and SCJ about the Court websites and resources made available to members and the public.

The focus was to create one document for zoom links, counsel sign up sheets and other information that would assist members and their clients. The Committee will continue to update this resource over the coming term and find ways to better assist members with accessing virtual court and will continue to attempt to address the concerns raised by members around accessing disclosure and other technology related issues.
