Criminal Law & Technology/Emerging Technology Committee

THREE key accomplishments in the last 12-months:

- Worked in collaboration with the Criminal Practice Committee to secure a complete zoom list for the Ontario Court of Justice hosted on the CLA website
- Implemented a Courtlist email address allowing courts to email the CLA daily and weekly lists that are automatically circulated to the membership without need / inefficiency of individual involvement
- Clarified the committee's terms of reference to increase transparency

THREE key initiatives underway:

- Participation in the Courts Digital Transformation Working Group
- Sourcing IT partners for members to assist with computing/IT needs
- Updating the "Courts" section for members on the CLA website to create a page for each courthouse with key contact and procedural information

To become involved, please email:
